APPENDIX TO LAWS.

---

BIENNIAL REPORT  
OF THE  
STATE TREASURER,  
FOR 1857 AND 1858.

---

TREASURER'S OFFICE, ILLINOIS,  
*Springfield, December 15, 1858.*

*To the General Assembly of the State of Illinois :*

Pursuant to the requirements of law, I have the honor to report the receipts and disbursements of the public money in the two years ending November 30th, 1858, in the following order :

1. A statement of the aggregate receipts for revenue purposes.
2. A statement of monthly receipts of revenue, special taxes, for state lands, &c.
3. A statement of monthly credits, on account of each fund, by receipts from the auditor of public accounts.

The receipts and disbursements and the balance of each fund remaining on hand on the 30th of November, are as follows, viz :

Receipts for revenue purposes, including the balance on hand on the 1st day of December, 1856, amount to \$915,051 81. Payments on the same account amount to \$761,977 68, leaving a balance in the treasury, for revenue purposes, of \$153,074 13.

Receipts on account of the state debt fund, including the balance on hand on the 1st day of December, 1856, amount to \$2,010,714 17. Payments on same account amount to \$1,244,084 69, leaving a balance on hand, for *pro rata* distribution, on the 1st day of January, 1859, of \$766, 629 48.

Receipts on account of the interest fund, including the balance on hand 1st day of December, 1856, amount to \$1,385,608 49. Payments on the same account amount to \$1,162,165 54, leaving a balance in the treasury of \$223,442 95. Leaving a deficit of about \$47,000 to meet the January installment of interest, out of the interest fund proper, which is provided for in "An act to amend an act entitled 'an act to provide for reducing the state debt,'" approved February 19, 1857.

Receipts on account of the state school fund, including the balance on hand December 1st, 1856, amount to \$260,710 65. Payments on

the same account amount to \$199,317 94, leaving a balance in the treasury of \$61,392 27.

Receipts on account of the state land fund, including the balance on hand December 1st, 1856, amount to \$53,588 84. Payments on same account amount to \$53,448 84, leaving a balance in the treasury of \$140.

Receipts on account of the Central railroad fund, including the balance on hand 1st day of December, 1856, amount to \$256,870 34. Payments on same account amount to \$239,916 54, leaving a balance in the treasury of \$16,953 80.

Amount of taxes on non-resident lands remaining in the treasury on the 1st day of December, 1856, is \$4,471 67. Payments on account of the same amount to \$140 41, leaving a balance in the treasury of \$4,331 67.

Saline river navigation fund in the treasury, 1st day of December, 1856, is \$777. Payments on same account amount to \$777, balancing said account.

Funds deposited in the treasury from Adams and Hancock counties, belonging to unknown heirs, \$86 40.

As my predecessor had arranged with the American Exchange Bank, in New York, to receive the interest funds of Illinois from the treasurer, on special deposit, and to disburse the same, when I entered upon the duties of this office, I continued to pay the accruing interest on the public debt through said bank up to and including the twenty-fourth installment, due and payable January, 1858. But as the transfer agency had been changed, and M. Ketchum, esq., appointed transfer agent, and as it seemed desirable to have the transfer and interest agencies connected, or the business of both attended to by the same house or firm, I arranged with Messrs. Ketchum, Howe & Co. to receive and disburse the interest funds for the twenty-fifth installment of interest due and payable July, 1858, who are still acting as agents of the state for the payment of interest on the public debt, and make their deposits in the Union Bank.

The account of the American Exchange Bank, and also the account of Messrs. Ketchum, Howe, & Co. showing amounts of remittances of the interest fund, and of payments by them, respectively, is herewith submitted, as a part of this report.

I have the pleasure to inform you, that the whole accruing interest was paid for January, 1857, and subsequently, up to this time, that has been presented for payment.

JAMES MILLER, *Treasurer.*

*State Treasurer to the State of Illinois.*

DR.

To balance in the treasury for revenue purposes, December 1st, 1856.....	\$162,039 82
Taxes collected and paid over by collectors, assessed in the year 1855, and prior years, for revenue purposes.....	3,773 70

# AUDITOR'S REPORT.

---

Law Vol.—3

BIENNIAL REPORT

OF THE

AUDITOR OF PUBLIC ACCOUNTS,

OF THE

STATE OF ILLINOIS.

---

AUDITOR'S OFFICE, ILLINOIS,  
*Springfield, December 1, 1858.*

*To the General Assembly of the State of Illinois:*

I have the honor to submit the following report:

1. A statement of the receipts and expenditures, showing the amount of revenue received, applicable to the payment of the ordinary and contingent expenses of the state government, and the amount disbursed.
2. A statement of warrants drawn upon the treasury for all purposes.
3. A detailed statement of warrants drawn on the treasury, and to what appropriation charged.
4. A statement of warrants drawn on the order of the governor, and charged to the contingent fund.
5. A statement of the amount of warrants which have not been presented at the treasury for payment.
6. A statement of the redemption money received from minor heirs, and due the owners of tax deeds.
7. A statement of the accounts of the state treasurer.
8. A statement of the amount of the school, college and seminary funds.
9. A statement of the county dividends of the interest and school tax funds.
10. A statement of the school tax fund for the year 1856.
11. A statement of the school tax fund for the year 1857.

12. A statement of the state taxes charged in the several counties for the years 1856 and 1857, amount collected, &c.

13 and 14. Tabular statements of personal property, and the value of real property taxable in the years 1856 and 1857.

15. A statement of state lands sold, the amount sold for, and the number of acres remaining unsold.

16. A statement of the state indebtedness purchased with the school fund, and the amount of said fund placed in the hands of the governor for that purpose.

17. A statement of state indebtedness purchased with the state land fund, and the amount of said fund drawn by the governor for that purpose.

18. A statement of state indebtedness purchased with the Central Railroad fund, and the amount of said fund drawn by the state treasurer in payment thereof.

19. A statement of the state indebtedness purchased with the Central Railroad fund, and the amount of said fund drawn by the governor in payment therefor.

20 to 26. The several statements and tables exhibiting the condition and affairs of the banks of the state, organized under the general banking law.

The Bank of Lucas & Simonds, and the Quincy City Bank, have furnished evidence of publication, as required by law, and withdrawn their securities—and due notice having been given by me, as required by the act of 1857, section 1, page 220, in the cases of the Farmers' Bank, City Bank, Mechanics' and Farmers' Bank, the Phoenix Bank, the Bank of Rockford, and the Union Bank, and three years having elapsed from the date of the protests of the same respectively, the securities of the same have been surrendered to the stockholders, or are retained here for evidence of ownership.

The law relative to the final settlement of the affairs of banks, (thirty-seventh section of the general banking law,) not being applicable to banks closing business under the act of 1855, it may be necessary to determine by law when, and how their affairs shall be finally closed.

The statement of the treasurer's accounts exhibits the finances of the state in a sound and flourishing condition. The punctuality in the payment of the taxes, furnishes gratifying evidence of the prosperity of our state and the good faith of our citizens. The amount of revenue in the treasury, applicable to the payment of ordinary and contingent expenses of the state government, is \$153,074 19.

The statements of the value of taxable property, and the amount of taxes levied for the current year, 1858, have not as yet been received from the several counties, and therefore cannot be included in this report.

The aggregate value of taxable property for the year 1856 is \$349,951,272, being an increase over the previous year of \$15,552,847, and the aggregate valuation for the year 1857 is \$407,477,367, being an increase in 1857 over 1856 of \$57,526,095, equal to about sixteen and one-half per cent. on the valuation of 1856.

There can be but little doubt of the fact that a fair valuation of the taxable property, in accordance with the requirements of the law regulating the assessment of property, would greatly increase the aggregate valuation.

The 15th article of the constitution provides for the collection of a tax of two mills on the dollar of valuation, and the distribution of the proceeds thereof on the first day of January, in each year, to such holders of state bonds as may present them for that purpose—such payments to be made on the principal of the bonds presented. These payments have been regularly made since the adoption of the constitution, and have doubtless contributed to that perfect restoration of the state credit which now happily prevails. This elevation of the credit of the state has, however, produced a state of things in relation to the two mill tax which would seem to require the immediate attention of the legislature. While our state stocks were much below par in the money markets, payments on account of the principal were of course acceptable, but our stocks are now considerably above par, and it is therefore improbable that any considerable amount will be presented on the first day of next January.

The avails of the two mill tax for the present year reach the large sum of \$766,649 48, which, in all probability, will remain in the state treasury uncalled for. In anticipation of this result, the last legislature passed an act providing that any amount of this fund remaining uncalled for on the first day of January in each year, shall be added to the fund already provided for purchasing the evidences of indebtedness of the state. It appears, however, that much difficulty is now experienced in the purchase of state indebtedness with the funds already provided for that purpose. Holders of our bonds are disinclined to sell, and very limited amounts only go on the stock market, and these are held above par. The last purchases made in New York by the state agent were at the rate of three and one-half per cent. premium, and there is now a considerable amount of the funds so provided remaining in the state treasury unexpended. Under these circumstances, to go into the stock market with the large fund remaining of the two mill tax would probably raise the price of our state stocks to a rate at which it would be very undesirable to buy them. The policy of this course may well be questioned from other considerations. One of the objects of the 15th article of the constitution was to aid in restoring the credit of the state, which was greatly depressed at the time of its adoption. That object is happily accomplished. The owners of our six per cent. obligations prefer to hold them, and in fact will not part with them, even at a considerable premium. In the meantime our people are enduring a heavy taxation during a time of general pecuniary difficulty, to raise the means of paying this debt, which our creditors refuse to receive. Many of our citizens are paying a much higher rate of interest than the state, and this taxation is burdensome to all, but has heretofore been cheerfully paid, because considered necessary. Under these circumstances it remains with the general assembly to determine, in their wisdom, whether any means can and shall be devised to relieve the people from the payment of the two mill tax, while, at least, as now, the collection of that tax is but a useless burthen upon them. Unless there

is some legislation on this subject, the public officers will of course be bound to carry out the provisions of the act of the last session, by the purchase of state bonds at market rates, with the large amount that will remain of the two mill tax; and in addition, a still larger amount will be collected on the assessment of 1858, which, in all probability, will not be called for, and will have to be used in still further advancing the price of our state stocks.

A serious question has arisen between the state and the Illinois Central Railroad company, in reference to the liability of that company for taxes, under its act of incorporation, and the law. The act incorporating the company was passed Feb. 10th, 1851, and the eighteenth section thereof provides "that in consideration of the grants, privileges and franchises herein conferred upon said company, for the purposes aforesaid, the said company shall on the first Mondays of December and June, in each year, pay into the treasury of the state of Illinois, five per centum of the gross proceeds, receipts or income derived from said road and branches, for the six months next preceding." The twenty-second section provides that "the lands selected under said act of congress, and hereby authorized to be conveyed, shall be exempt from all taxation under the laws of this state until sold and conveyed by said corporation or trustees; and the other stock, property and effects of said company, shall be in like manner exempt from taxation for the term of six years from the passage of this act. After the expiration of six years, the stock, property and assets belonging to said company shall be listed by the president, secretary or other officer, with the auditor of state, and an annual tax for state purposes shall be assessed by the auditor upon all the property and assets of every name, kind and description belonging to said corporation. Whenever the taxes levied for state purposes shall exceed three-fourths of one per centum per annum, such excess shall be deducted from the gross proceeds or income herein required to be paid by said corporation to the state, and the said corporation is hereby exempted from all taxation of every kind, except as herein provided for. The revenue from said taxation, and the said five per cent. of gross or total proceeds, receipts or income aforesaid, shall be paid into the state treasury in money, and applied to the payment of interest-paying state indebtedness, until the extinction thereof: *Provided*, in case the five per cent. provided to be paid into the state treasury, and the state taxes to be paid by the corporation, do not amount to seven per cent. of the gross or total proceeds, receipts or income, then the said company shall pay into the state treasury the difference, so as to make the whole amount paid equal at least to seven per cent. of the gross receipts of said corporation."

Under the provisions of the section last quoted, the property of the company became liable to assessment for a valuation tax for the first time, in the year 1857, for the taxes of that year, and its property was accordingly listed for taxation in the manner prescribed by the act.

The taxes upon the assessed value of the property of the company, when added to the five per cent. provided to be paid into the state treasury, exceeded seven per cent of the gross earnings of the road for that year. The company insist, that under the law, its liability to the

state for taxes, cannot, in any event, exceed seven per cent. of its gross earnings, whilst on the part of the state it is insisted that its liability to to the state cannot be *less* than seven per cent. of its gross earnings, but may be *more*, depending upon the assessed valuation of the property. The company have paid into the state treasury \$145,645 84 for the year 1857, and \$60,255 76 for the June installment for the year 1858, which I suppose is seven per cent. of the gross earnings, but having declined to pay more, suit has been instituted against said corporation in the supreme court for the balance claimed to be due the state, and an authoritative construction of the law from that tribunal may be expected at its next term. As the matter is so speedily to undergo the highest judicial investigation and construction, I deem it unnecessary to trouble the legislature with a detailed statement of the very obvious considerations, derived as well from an intelligent reading of the law as from reasons of principle and policy, why the construction claimed by the state should be regarded as the true one. Whatever may be the present embarrassment of that company, the general assembly should be careful to recollect, that not only now, but in all future time, so long as that company has a corporate existence, a large and constantly augmenting portion of taxable resources of the state must be under its control and ownership, and nothing could be more dangerous and suicidal to the future interests of the people of the state, under suggestions however specious they may now appear, for the state to surrender to this or any other corporation, the great constitutional privilege of taxing its property according to its value.

JESSE K. DUBOIS,  
*Auditor Public Accounts.*

## No. 1.

*STATEMENT of Receipts and Expenditures from the 1st day of December, 1856, to the 30th day of November, 1858, inclusive.*

NOTE.—The collectors in the counties of Bureau, Hamilton, Kendall, Morgan, Ogle and White, for the year 1857, and Warren for 1856, have been estopped, by injunction, from the collection of the amounts remaining due from said counties. The amount due from Warren county, for 1857, is reported as being for "railroad tax uncollected;" but it does not appear, from the statement of the county clerk, that the same has been restrained from collection by any legal process. The amounts due from Hancock and McHenry counties for 1856, and Cook county for 1857, are on account of defaulting town collectors. There has been no adjustment of the accounts of the collectors of the counties of Logan and Wabash for 1856, owing to the fact that all the books and papers pertaining to the revenue of those counties were destroyed in the burning of the court houses in the towns of Lincoln and Mt. Carmel. In statements Nos. 10 and 11, these amounts are treated as abatements; in statement No. 12 they are treated as being due from the counties. The collector of the county of Macoupin has closed his account since the 30th day of November, 1858.

## No. 13.

*TABULAR STATEMENT of the number and value of domestic animals; number and value of enumerated articles; the value of merchandise, bankers' property, manufactured articles, moneys and credits, bonds, stocks, &c.; unenumerated property, town lots and lands listed for taxation in the several counties, for the year 1856, as returned to the auditor's office, Illinois.*

NOTE.—In making up the foregoing tables for the years 1856 and 1857, I have not been able in some cases to class the property correctly, as the returns from some of the counties to this office do not show the value of real and personal property separately; the returns from several of the counties show apparent errors in the footings, of which I have been unable to obtain corrections, but the tables are substantially correct.

JESSE K. DUBOIS, Auditor.

## No. 15.

*A STATEMENT showing the number of acres of state lands in the several counties in which they are situated remaining unsold December 1st, 1856, the number of acres sold, the amount sold for, and the quantity remaining unsold December 1st, 1858.*

Counties.	Acres unsold Dec. 1, 1856.	Acres sold from Dec. 1, 1856, to Dec. 1, 1858.	Total amount of cash re- ceived on sales.	Acres unsold Dec. 1, 1858.
